

DHC Multi-Phase Blocking Coupler,
 200 Amp Max, 120/208/240 Volt 1Phase –
 Black

Product Features:

- Device Type: Multi-Phase Blocking Coupler
- Load: 200 Amp Max
- Voltage: 120/208/240 Volt 1Phase
- Color: Black
- Standards and Certifications: UL/CSA
- Warranty: 2-Year Limited

Features and Benefits:

- Installs between the incoming electrical service panel in apartment buildings, condominiums, attached-unit dwellings and homes sharing the same side of the electrical transformer to keep extraneous electronic noise and signals from entering or leaving the DHC network.
- Used to stop extraneous noise and signals from degrading DHC operation
- These devices are designed to eliminate interference from appliances, electronic ballasts and home electronics in order to insure top performance from the DHC systems
- Clamps around (inductive pickup) the in-coming Neutral Wire
