

Instruction / Installation Sheet DataComm Electronics Custom 19" Rack Adaptor 70-0019

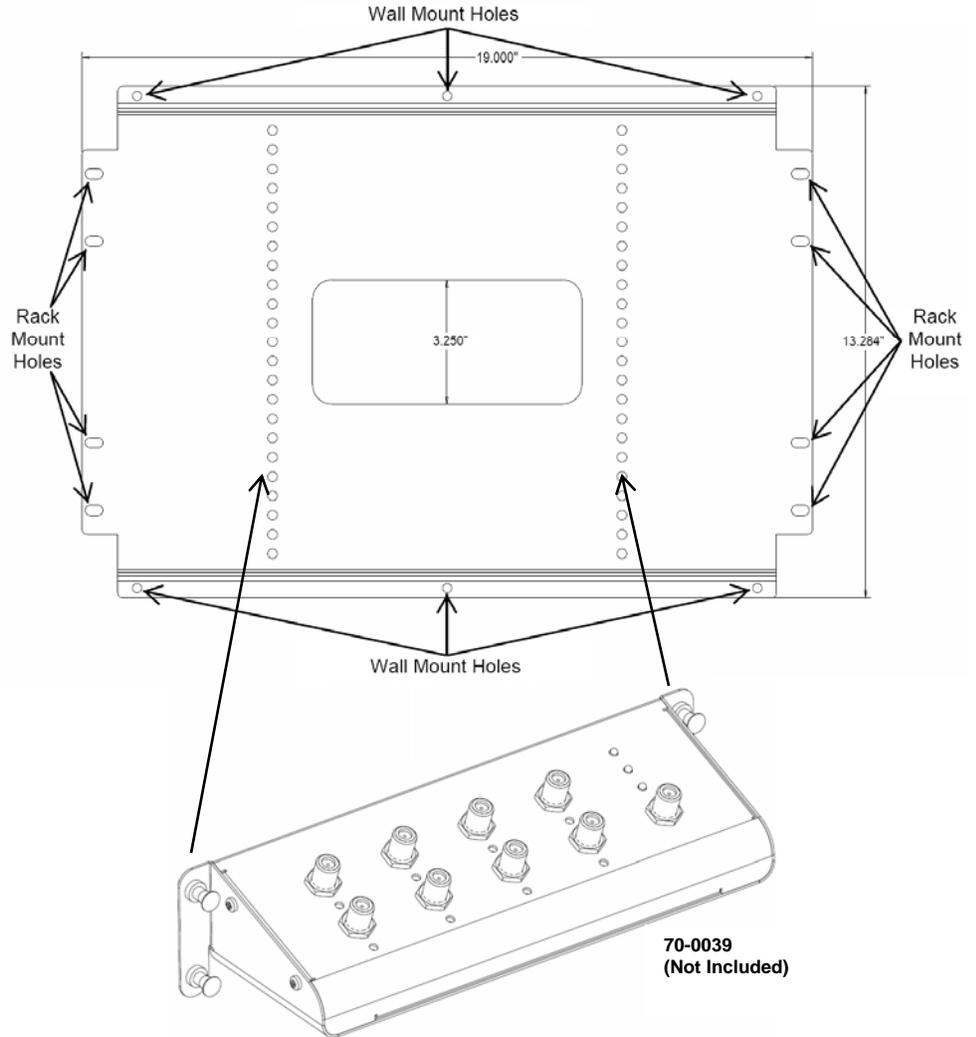

Parts Included:

1. Custom Wall/EIA 19" Rack Adaptor
2. Four (4) #10-32 Rack Screws

Use DataComm Electronics Custom Wall/EIA 19" Rack Adaptor to install our 70-0039 HDTV Adjustable Distribution Amplifier in a wide variety residential and commercial applications. Our adaptor is designed to hold up to (2) 70-0039's on wall applications and up to (3) 70-0039's on rack applications.

Wall Mount Utilize any of the top three and bottom three holes to firmly secure the adaptor to the wall. Once the appropriate height is determined, align the 70-0039 to the adaptor grid pattern and use the black push pins to lock into place.

Rack Mount Utilize any of the left four and right four holes to firmly secure the adaptor to a standard EIA 19" rack system (front or rear). Once the appropriate height is determined, align the 70-0039 to the adaptor's grid pattern and use the black push pins to lock into place.

CAUTION

- Never install telephone wiring during lightning storms.
- Never install telephone jacks in wet locations unless the jack is specifically designed for wet locations.
- Never touch un-insulated wires or terminals unless the telephone line has been disconnected at the network interface.
- Use caution when installing or modifying telephone lines.

IMPORTANT INSTRUCTIONS

- Read and understand all instructions.
- Follow all warnings and instructions marked on the product.
- Do not use this product near water, for example a near bath tub, wash bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool.
- SAVE THESE INSTRUCTIONS.
