

ChannelPlus Telephone Service Hub

IMPORTANT INSTRUCTIONS

When using your telephone equipment, basic precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

1. Read and understand all instructions
2. Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool.
3. Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltages.
4. Use only UL listed cabinets like the H218 or H236.
5. **SAVE THESE INSTRUCTIONS**

Typical Installation

Expanding For More Phone Drops

Using the H611 Telephone Entry Module

SAFETY INFORMATION:

- a) Never install telephone wiring during a lightning storm.
- b) Never install telephone jacks in wet locations.
- c) Never touch uninsulated telephone wires or terminals unless the telephone line has been disconnected at the network interface.
- d) Use caution when installing or modifying telephone lines.

OpenHouse™ modules attach from the top

- 1) Hook from the top
- 2) Swing into place
- 3) Push button to lock

Wire Color Codes

Modular connectors

6 position connectors

RJ-11
Single line telephones, answering machines & modems

RJ-14
Dual line telephones & answering machines

RJ-25
Rare 3 line KSU

8 position connectors

RJ-45 (wired to TIA T568A standard)
Ethernet (both 10BaseT and 100BaseT)
Structured wiring of phones and data lines
(There are other wiring standards. For residential use, we recommend that RJ-45 jacks be wired to the T568A standard.)

Wiring a 110 connector

Keep sheath close to connector
Untwist .5" max.

110 punch down tool

The 110 is a sophisticated insulation displacement connection system. To push the wire between the contact blades, use only a 110 punch down tool. Using a screwdriver or needle nose pliers may not seat the wire properly and can damage the contacts.

Note order of colors

Wiring a telephone wall plate

Cable Color	Pin #	Connector Color
White/Orange	Pin 1	N/C
Blue	Pin 2	White/Orange
White/Blue	Pin 3	Blue
Orange	Pin 4	White/Blue
	Pin 5	Orange
	Pin 6	N/C

Cable Color	Pin #	Connector Color
White/Brown	Pin 1	N/C
Green	Pin 2	White/Orange
White/Green	Pin 3	Blue
Brown	Pin 4	White/Blue
	Pin 5	Orange
	Pin 6	N/C

Option: old style wall plate

Wiring a Cat-5 jack

Wiring a house for OpenHouse
The cables in an OpenHouse run from the various rooms of the house directly to the service center location. (This is known as 'home run' wiring.) Two types of wire are used for communication and entertainment: Cat-5, 4-UTP (4 Unshielded Twisted Pairs) wire handles data or 1 to 4 telephone lines. RG-6 coax handles television (antenna or cable), satellite dish, cable modem, or AV modulator signals. (An AV modulator creates new TV channels for front door camera, DVD player, a VCR or a satellite receiver.) We recommend the following pre-wire schemes . Run these wires from the service center to the rooms indicated.

Warranty

Multiplex Technology, Inc. warrants this product to be free from defects in materials and workmanship for a period of one year from the date of purchase or MTI will repair, or at its option, replace the defective product. To obtain warranty service, call MTI for a return material authorization (RMA) number and return the product prepaid to Multiplex Technology, Inc., 3001 Enterprise Street, Brea, CA 92821, Attention: Customer Service. Please put the RMA number on the outside of the carton.

Any implied warranty arising from the sale of the product including implied warranties of merchantability and fitness for purpose are limited to the warranty stated above. MTI shall not be responsible for losses or damages or expenses, whether direct, consequential or incidental arising from the use of or the inability to use this product. Some states do not allow limitations on how long the implied warranty lasts or the exclusion or limitation or incidental or consequential damages, so the above limitations and exclusions may not apply to you. This warranty gives you specific legal rights, and you may have other rights which may vary from state to state.

ChannelPlus Enclosures, Modules, Accessories & Wall Plates

Service center enclosures

A full line of OpenHouse compatible enclosures, from simple, inexpensive mounting plates to high capacity in-wall cabinets. AC outlets can be mounted inside the cabinets using a UL listed accessory.

Starter systems

RF splitters and telephone punch downs. When it is time to upgrade, just snap this module out and replace with one of more of the more sophisticated units.

Data hubs

Termination blocks for the CAT-5 cables, Ethernet hubs. Bring the Internet to any room in the home. Or create a home data network.

Telephone hubs

Connections for 1-4 phone lines to every room. Starter hub adds RJ-31X jack for security system dialer.

Wall plates

Wall plate systems for all rooms. The typical room gets TV and telephone. The Home office wall plate adds data ports. The media center wall plate adds satellite feeds.

Coax panels

Distribute antenna or cable TV to every room of the house. Some models include bi-directional amplifiers for interactive cable systems. Some models include modulator inputs and IR engines.

AV modulators (for service center)

Create a new TV channel for a front door camera. Some models feature Cat-5 input connections.

AV modulators (for media center)

Create new TV channels for DVD, VCR, or a satellite receiver. These modulators sit in the media center. Some offer true MTS stereo.

IR Accessories

Control video devices from any room.

New OpenHouse products are added all the time.
