

Home Automation

**Control lights and appliances.
Anywhere. Anytime.
From your smart phone or tablet.**

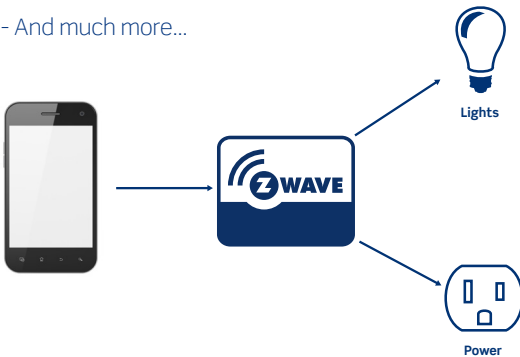

The Leviton home automation program offers homeowners a comprehensive, low cost way to centrally control lighting, HVAC systems, appliances, locks, windows, shades and much more all from the touch of a button on their phone or tablet. By combining functionality with technology, the Leviton home automation program is uniquely designed to work with many of today's popular Z-Wave enabled controllers, hubs and gateways so it's easy for homeowners to incorporate Leviton devices into the mix for smarter, automated lighting control.

Benefits

All Leviton Decora® Z-Wave products offer iconic contemporary style and are compatible with many Z-Wave enabled controllers, hubs and gateways on the market today. Simple, one-touch lighting utilizing your smart phone or tablet virtually eliminates tiresome manual operation of lighting in the home. With Leviton devices, users can:

- Turn lights on and off anytime, from anywhere
- Dim lights to create picture-perfect lighting scenes in an instant
- Easily program lights to respond to related actions such as switching ON when the front door is unlocked
- And much more...

Leviton Line of Z-Wave Compatible Devices

Leviton offers an exciting selection of devices for automated control of lights, motor loads and appliances; all designed to work with Z-Wave technology.
