Setting Up August Connect (Android)
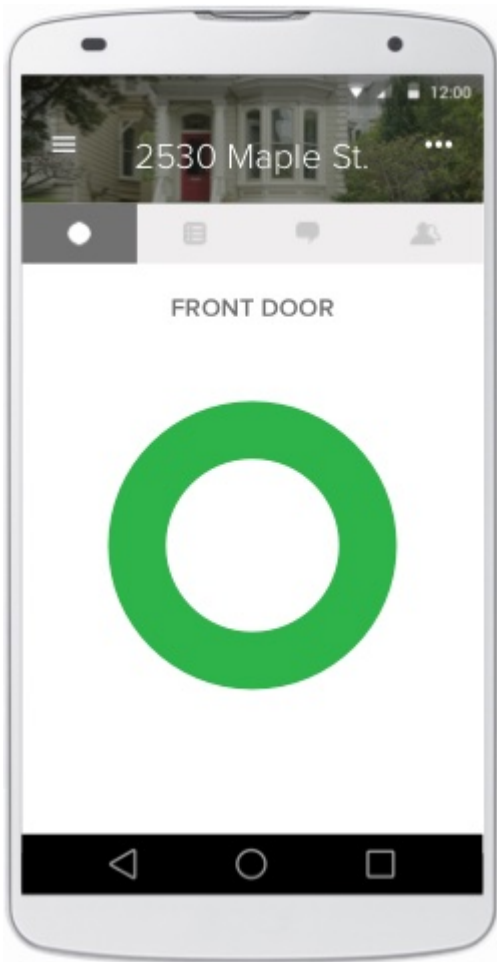

If you're using an iPhone device, please click here.
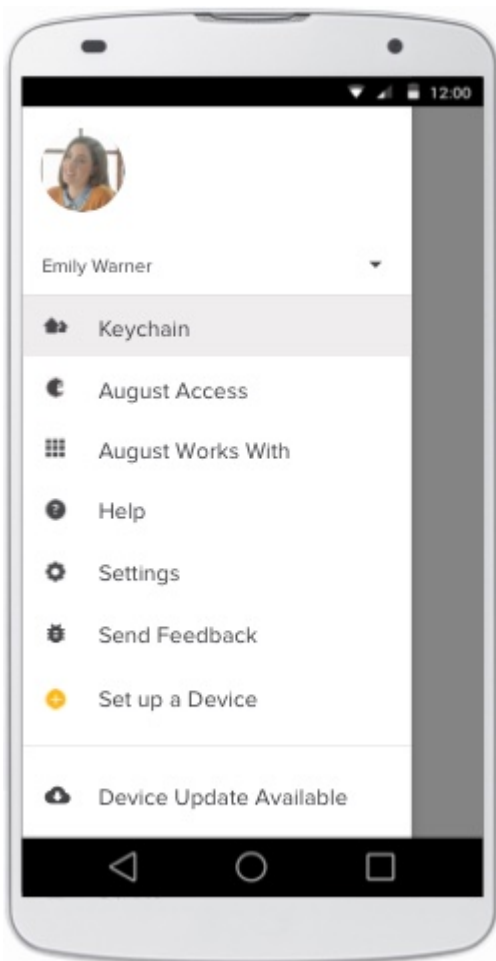

To install your August Connect:

- Plug your August Connect into a power outlet within 15 feet of your August Smart Lock for optimal performance and reliability.

- Wait for the flashing green light on your August Connect. If you don't see the flashing green light press and hold the button on your August Connect for 3 seconds.

The August Connect requires an active August Smart Lock and needs to be installed using a compatible phone. Please visit our phone compatibility page to ensure that your phone is compatible.
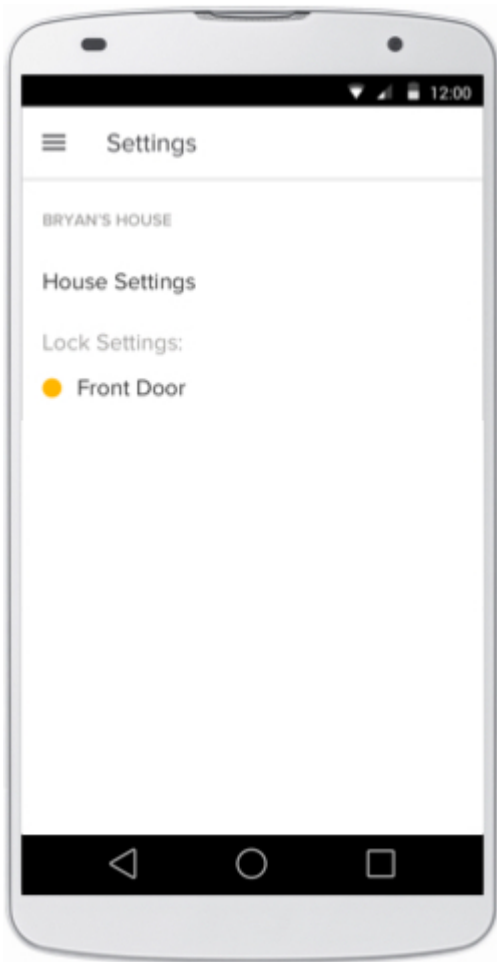

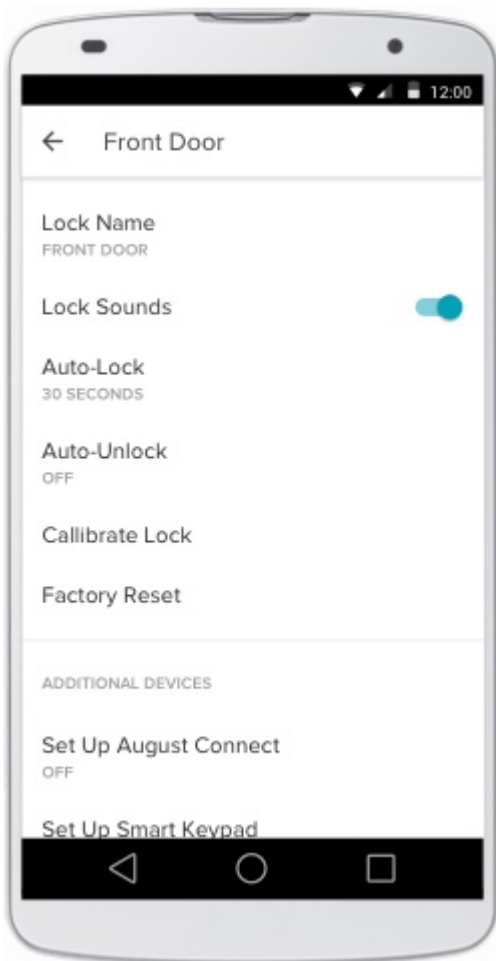

Tap the **Menu Icon**

Select **Settings**
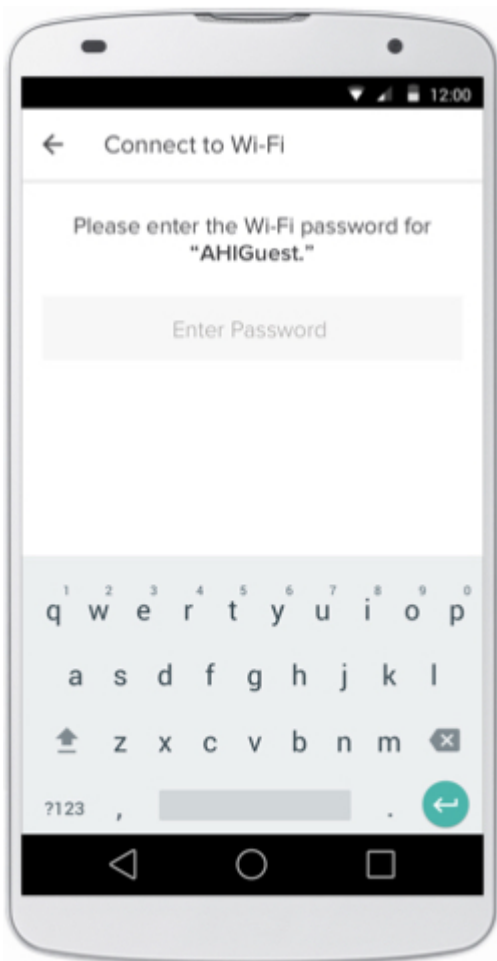

Select Your Lock in **Lock Settings**

Select **Set Up August Connect**

Select **Begin Scan** to Start the Connection Process

Enter Your Wi-Fi Password

The Connect is connecting to Your Wi-Fi Network
