DATASHEET

Smart Lever Lock

HSC-C89

Z-Wave smart lever lock with mortise latch. Unlock with fingerprint, PIN code, RFID card, mechanical key, or the Z-Wave controller.

Rev. 1.0 | October 2026

Key features

- Five unlock methods: Z-Wave controller, PIN code, fingerprint, RFID card, and mechanical key.
- Electronic anti-lock (privacy) switch on the inside panel.
- Reversible handle for left-hand or right-hand doors.
- Always-open mode, two-factor authentication, and silent mode.
- Keypad lockout after 5 wrong codes. Anti-peep code entry.
- Unlock records and user statistics on the lock.
- Micro USB emergency power if the batteries are empty.

Applications

- **Hotels:** keyless guest access with codes or cards managed from the controller.
- **Short-term rentals:** create and delete guest codes remotely between stays.
- **Schools and light commercial:** controlled access to offices, storage, and classrooms.
