12. Alarm Screen Overview

Status of the Alarm System

Arm Home, Arm Away / Exit Delay

Slide to activate the hub siren in emergency.

13. Arm Home / Arm Away

Arm Home
Select "Arm Home" to protect while you're at home. This mode deactivates motion sensors but leaves other sensors activated.

Arm Away / Exit Delay
Select "Arm Away" to protect your home when you're away. This mode activates or triggers the alarm after a default set of time, giving you enough time to get in and out of your house to arm/disarm the alarm system.

14. Disarm Alarm System

When an alarm is activated, a push notification will be sent to all users and your smartphone will play an alarm sound.

Tap the "Disarm" Button to disarm the alarm system.

15. Keychain Remote

Arm and disarm the alarm system with a keychain remote.

- Arm Away
- Arm Home
- Disarm
- Panic Button

Press and hold the Panic Button for 5 sec. to activate it.

16. Event Log

See all the recent actvities of the Alarm System on the Event Log.

1. Go to "More":
2. Tap on "System Settings"
3. Tap on "Event Log"
