

ABB Welcome™ M251021C Camera module

M251021C

Camera module

Wide angle camera for video outdoor station configuration. It can also be mechanically adjusted. The camera module is equipped with an anti-fog device to ensure image clarity.

Key features

- Video color camera with large detection angle (H 86°, V 67°, D 104°) and is manually and mechanically adjustable (H ± 15°, V ± 15°).
- Built-in infrared lighting ensures a clear picture at night and also allows stealth surveillance from video indoor station.
- Anti-fog design with built-in heater ensures clear image.
- Option to connect one additional analog camera for surveillance.
- Conforms to PAL and NTSC standards.

Number	Function
1	Connector for additional analog camera
2	Connector for audio module
3	Jumper for setting the video format: PAL/NTSC
4	Adjust the camera view area

Specifications

- Operating temperature: -40 °F to + 158 °F
 Ingress protection: IP54
 Bus voltage: 20-30 VDC (From system controller or system component configured as local power supply through audio module)
 Product dimensions: 2.83" x 3.82" x 1.61"
