

Mobile phone sensor

Art. no. BE9251

NEW! Now we introduce the Mobile phone sensor that connects the mobile phone or tablet to the Visit alerting system. It will tell your clients when they receive a call or message, even if they are several rooms away.

When the display lights up, the mobile phone sensor activates the Visit system that notifies the client with sound, flashes or vibrations.

TECHNICAL INFORMATION

Placement	Horizontally on the display
Optical detection	Activated when the display lights up
Light sensitivity	Visible light >3 lux
Connectors	2.5 mm tele plug
Cable length	120 cm (4 ft)
Connections	Can be connected to all Bellman & Symfon products that feature a mobile phone sensor input like for example BE1441 and BE1442.
Weight	20 g (0.7 oz)
Color	White

ADDITIONAL INFORMATION

Ergonomic design	Ideal for people with impaired vision or limited dexterity
Low center of gravity	Resumes an upright position if it is knocked over
Usage	For indoor use only
