

Decora Smart 4-Button Controller with Wi-Fi Technology

decora smart

APPLICATION

The Decora Smart Wi-Fi 4-Button Controller provides sophisticated in-wall control of multiple Decora Smart Wi-Fi devices, room lighting scenes and whole house lighting activities. Pairs with Decora Smart Wi-Fi lighting controls and the My Leviton app to offer an “always there, always on” control center for smart lighting. Adjust devices, activate scenes in a room, or push one button to turn off every light in the home.

The DW4BC requires hot, neutral, and ground wires, and does not directly connect to a load. The four buttons can be customized for control via the My Leviton app.

WORKS WITH MY LEVITON

Simply use the My Leviton app to enroll all of your Leviton smart devices, then use the app to assign specific functions to each of the 4 physical buttons. For instance, the top button could be “All On”, the 4th button could be “All Off” and then 3 and 4 could be commonly used scenes such as “Dinner Time” and “Party Mode”. The custom lighting scenes can include any product from the Decora Smart Wi-Fi family including dimmers, switches and smart plugs.

FEATURES

- To be installed in locations with hot, neutral and ground. An electrical load cannot be directly wired to this product
- Use the My Leviton app to create scenes and lighting activities
- Buttons feature feedback lights that illuminate upon button press, then vanish
- Up to 8 DW4BC's may be used per Residence

BENEFITS

- Control room or house scenes from a button
- In retrofit applications, may be installed in a multi-way circuit along with a Decora Smart Wi-Fi switch or dimmer
- Enact All Off, Movie Time, and more
